Objective

I am a motivated and dedicated undergraduate student pursuing a Bachelor's Degree in Software Engineering at INES-Ruhengeri. Passionate about developing innovative software solutions, problem-solving, and enhancing technical skills in software development, web development, and database management. Seeking internship opportunities or entry-level positions to apply my technical knowledge, gain real-world experience, and contribute to impactful projects.

Education

INES-Ruhengeri University
Bachelor of Science in Software Engineering (Expected Graduation: 2025)
Musanze, Rwanda

- Relevant Coursework: Programming Fundamentals, Web Development, Database Systems, Data Structures and Algorithms, Software Project Management, Object-oriented Programming and many more.

St. Kizito Catholic Hugh School
High School Diploma
Montserrado County, Liberia
Graduated: 2021

Technical Skills

- **Programming Languages**: Java, PHP, HTML, CSS, JavaScript, SQL
- **Software and Tools**: Visual Studio Code, Git/GitHub, MySQL, NetBeans
- **Web Development**: Basic knowledge of front-end technologies (HTML, CSS, JavaScript), familiar with responsive design principles
- **Database Management**: Proficient in SQL and database design; experience with MySQL
- **Operating Systems**: Windows, Linux (Ubuntu)

Projects

1. **Student Registration System (Java)**
   - Developed a simple Java-based application for registering and managing student information.
   - Implemented features for adding, updating, and deleting student records.
   - Utilized object-oriented programming principles and basic Java GUI.

2. **Personal Portfolio Website**
   - Designed and developed a portfolio website to showcase projects, skills, and resume.
   - Utilized HTML, CSS, and JavaScript for a responsive and user-friendly interface.
   - Hosted the website on Infinity free to share with prospective peers.

3. **Library Management System (MySQL & Java)**
   - Created a basic database system for managing library books and user information.
   - Integrated MySQL database with Java using JDBC to manage book check-ins/check-outs and user records.

Languages

- **English**: Fluent
